

HOMAG Technology Days

Join us for HOMAG Technology Days 2024 at our factories and showrooms throughout Germany.

At HOMAG Technology Days, you can expect exclusive, innovative solutions for all areas of production. Be one of the first to experience our new highlights live and in-person. Get a hands-on impression of the latest releases and innovations.

We look forward to seeing you!

Don't miss out! All information about the events and registration can be found here.

New solutions, new possibilities...

Immerse yourself in the latest machine technology, complemented by innovative digital solutions designed to make your day-to-day work easier and more efficient.

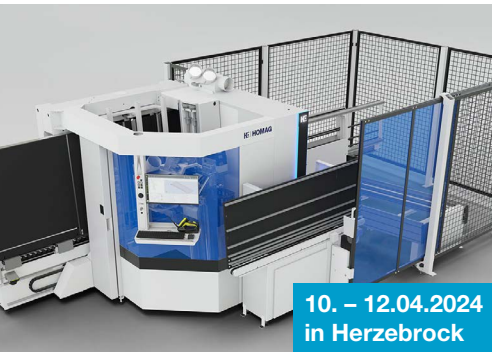

12. – 14.03.2024
in Holzbronn

Focus: Sawing, Cutting and Panel Dividing

Experience the latest saw and automation technologies for all varieties of furniture production and timber construction. From precise cuts to intelligent material utilization.

Our highlights:

- Perfect entry-level solutions: The SAWTEQ S-200 and the updated SAWTEQ S-300 flexTec robotic saw, fed by STORETEQ F-100 single-axis feeder
- **NEW:** Flexible nesting with the CENTATEQ N-210, combined with the STORETEQ P-300 storage system (with new woodStore features), and the new generation of SAWTEQ S-300 as a “storage-saw-nesting” cell concept

10. – 12.04.2024
in Herzbrock

Focus: CNC and Edge Processing

Experience new levels of speed and innovation, from a digital workflow to smart machine integrations. See the new ways to optimize your work processes.

Our highlights:

- **NEW:** EDGETEQ S-200 with new, top-mounted gluing unit for PUR or EVA
- **NEW:** EDGETEQ S-380 with the new, material friendly LOOPTEQ O-400 return conveyor
- **NEW:** Automatic workpiece return system with integrated reversing function for the first time at the DRILLTEQ V-310
- Experience over 1,600 m² of state-of-the-art technology in one compact location – complemented by suitable automation solutions and smart digital helpers

16. – 17.04.2024
in Schopfloch

Focus: Building Component Manufacturing

Discover technologies that enable and enhance the production of high-quality windows, stairs and doors. Empowering you to innovate and grow.

Our highlights:

- Celebrate 25 years of HOMAG window production technology!
- See the CENTATEQ S-800/S-900 for automated window production, bar processing and block frame production – from entry-level to customized system concepts
- Whether you're producing staircases, furniture, windows, doors or interior fittings – with the CNC processing centers of our CENTATEQ series, you have all the tools you need

14. – 15.05.2024
in Schopfloch

Focus: Edge Processing and Automation

Perfect edges bring perfect results. Experience outstanding edge processing combined with the right automation – from entry-level to fully automatic.

Our highlights:

- **NEW:** EDGETEQ S-200 with new, top-mounted gluing unit for PUR or EVA
- **NEW:** EDGETEQ S-500 with the new, material friendly LOOPTEQ O-400 return conveyor
- Edge cells from small to large: From the EDGETEQ S-380 with LOOPTEQ O-300 return conveyor, to the EDGETEQ S-500 with LOOPTEQ O-600, up to the EDGETEQ S-800 with LOOPTEQ C-500 edge circulation unit
