

Pre-contractual Information Obligations according to Art. 3 Para. 3 Data Act (EU Regulation 2023/2854)

Connected service: **intelliDivide**

Contact information

HOMAG GmbH
Homagstraße 3-5
72296 Schopfloch
Germany
phone: +49 7443 13 0
info@homag.com

I. Product Data

1. Type, (estimated) scope, and frequency of collection of product data:

When the app for optimizing cutting plans is launched, HOMAG intelliDivide reads the configuration data of the connected machine and saves this data. This allows intelliDivide to generate machine-specific cutting plans.

2. Access to Product Data:

Users can view the product data in the intelliDivide front end in the "Machine parameters" section and adjust it if necessary. This adjustment only affects the cutting plans calculated by intelliDivide and not the machine itself.

3. Storage and Deletion of Product Data (Retention Period):

The collected data is stored both on the networked product and on an external server (for more information, see II 2 below).

II. Connected Service Data

1. Type and (estimated) scope of the connected service data to be generated:

- intelliDivide processes production data in the form of component parts lists and material data for the board material to be used. Users can edit, view, and delete this data in the application.
- The calculated cutting plans can be transferred directly to the machine.
- intelliDivide itself does not collect any usage data for analyzing user behavior.

2. Access to Connected Service Data:

- Users can export the data in the intelliDivide front end. Depending on the application, this can be done in the following formats: SAW, PTX, PDF, XLS, MPR(X/E).

3. Storage and Deletion of Connected Service Data (Retention Period):

- The data is stored on an external server.
- The data is stored securely and in accordance with the applicable data protection regulations for the duration of the existing service agreement.
- intelliDivide allows the data to be deleted automatically after a period of time selected by the user.
- After termination of the agreement, the data can be deleted at the customer's request.

Pre-contractual Information Obligations according to Art. 3 Para. 3 Data Act (EU Regulation 2023/2854)

Connected service: **intelliDivide**

III. Use of Readily Available Data by the Provider or Third Parties:

The provider uses the data to improve its services and develop new features. Data will only be passed on to third parties with the express consent of the user and for clearly defined purposes.

IV. Information on the potential Data Holder and Contact Methods:

HOMAG GmbH

The service provider can be contacted at service-contracts@homag.com

V. Disclosure of data to third parties:

Users can contact service-contracts@homag.com if their data is to be disclosed to third parties.

VI. Right of appeal:

In the event of violations of the provisions of Chapter II of the Data Protection Act, the user has a right of appeal in accordance with Art. 37 of the EU Data Protection Act.

VII. Term of the contract and termination:

The contract term and termination are regulated separately in the separate software maintenance agreement or software subscription agreement.
